

Food and Beverage Services

Offering our clients a financially sound and wide-ranging food and beverage solution that is customizable to the desired target market.

Our Client's Challenges

- Improve quality and consistency of service
- Management and associate recruiting, training and retention in a competitive environment
- Creating a positive financial return from food and beverage operations
- Resources to cover the demands of a dynamic food and beverage operation
- Maintaining focus on the core needs for the rooms division

Our Offer

Operations: A flexible and reliable approach to outsourcing food and beverage services leveraging decades of customer service experience. Customizing dining concepts to suit your target market and introducing branded options from a broad portfolio when appropriate.

Financial Management: Creating a win-win contractual arrangement leveraging our qualified people, management systems, tools and procurement strength.

Safety: Industry leading food and physical safety programs backed by third party auditors, certification, and insurance.

Support: Backing a qualified on-site management and associate team with regional and national support in Sales and Marketing, Culinary Council, Supply Management, Human Resources and Development, Financial Services, Health and Safety, and Payroll Services.

Service Culture and Expertise

From the beginning, Sodexo has put the client and guest at the centre of everything we do. Our strong service culture, backed by a passion for culinary innovation, has been fostered by our dedicated team members for over forty years.

Combine this with the resources, systems and expert support and you've got a recipe for success.
