

Laundry and Linen Services

No matter what type of laundry you operate, or what type of service you need, Sodexo can help you control costs and improve quality and service.

Our Client's Challenges

- Improve quality and consistency of service
- Reduce capital investment, including equipment purchase and maintenance
- Reduce waste and increase the life of linen
- Convert laundry services from a cost centre to a revenue generating activity
- Reduce disruptions caused by labour issues

Our Offer

Operations: Our systems and approach ensure that your laundry runs smoothly and effectively.

Financial Management: We review and install business management tools, internal accounting controls and financial reporting systems that support the laundry and linen business.

Sales /Customer Service: We understand the importance of human resources systems that support the industry we serve.

Equipment Maintenance /Utility Management: Our staff is uniquely qualified in many areas of plant engineering to support your laundry.

Service Options: We are experienced in maximizing production efficiencies in any type of operation.

Compare your Laundry costs: Do you know your laundry costs? Do you know how to compare them to national averages?

In North America Sodexo has a division which is dedicated to Laundry & Linen Services:

- Processes more than 300 million pounds of linen annually for over 500 clients nationally
- Is able to measure results by comparing the client's laundry with the 35 plants they own and manage throughout North America
